

MEET THE FOUNDER

"Women in Christian Leadership is a co-labor with my Heavenly Father. It is His project. I'm following His lead and delighted to do so." Won't you join us?

Jeanne Porter has long been a proponent of women helping women. With a natural gift for recognizing the potential in women, she helps them develop leadership skills and prepares them to fill critical roles when opportunities arise. As the founder of Women in Business Networking (WiBN) in Dayton, Ohio, she broke new ground by bringing together women entrepreneurs, executives, and other trailblazers in a non-competitive, supportive environment. Here, women forge relationships, learn from each other, and celebrate each other's successes. Women in Business Networking is now a program of the Better Business Bureau in Dayton.

With her newest initiative, Women in Christian Leadership, Jeanne again applies her talent for recognizing leadership potential in women. Through the organization and its programs, she works to develop that potential through meaningful connections, thoughtful mentorship, and focused learning. Her mission is to broaden the opportunities for women to lead in all realms, from business and government to nonprofit and ministry work.

"Women in Christian Leadership wants to come alongside you with unique resources designed to help you grow closer to God - to enlighten and encourage. As part of our mission, we want to lead individuals into a growing relationship with Jesus Christ." Jeanne Porter, Founder
